Equipment/material needed	
<ul style="list-style-type: none">• Laptop or desktop computer with mouse.• Internet connection	<ul style="list-style-type: none">• Youtube• KDeLive

Lesson Outline

Phase of the lesson	Duration	Description
Warm-up	10 min	See this video: https://www.youtube.com/watch?v=pWepfJ-8XU0
Main activity	10	Talk about the different needs of different animals.
	20	Make a brief script of a video of caring animals. Distribute the recording of a short video of domestic animals with parents' help. Children have to pretend they are caring for them. If a child doesn't have an animal, they can use stuffed animals. Each one can do a different thing like bathing, feed or pet the animals.
	30	Using the open source tool KDeLive https://kdenlive.org/es/ , mount all of the videos with the help of children and listening their opinions. Later, upload the video to YouTube.
Assessment	5	Talk about caring pets
	5	Share the video with parents and talk with them.

Conclusions and recommendations

- Kdenlive, as a desktop video editing software, offers offline access, ensuring uninterrupted editing sessions without internet dependency.
- It provides advanced features and controls, giving users greater flexibility and professional-level editing capabilities compared to online tools.
- Kdenlive prioritizes privacy and security, as video files and projects are stored locally on the user's computer.
- The software is customizable and extensible, allowing users to personalize the interface and integrate community-contributed plugins and effects.
- Kdenlive is free and open-source, eliminating the need for subscriptions and providing cost-effective access to powerful editing tools.
